

**Winter Quarter 2009 - Environmental Horticulture 125**

## **Greenhouse & Nursery Crop Production**

This course will focus on all facets of producing ornamental crops in greenhouses and nurseries. The lecture periods will deal primarily with the methodology, while the labs and discussions will focus on specific crops. Students will receive hands-on growing experience and tour some commercial production sites.

**Lecture: M W F 10:00 - 10:50 am 146 Env Hort**

**Lab/disc: F 1:10 - 5:00 pm 146 Env Hort**

**Instructor:**

**Dr. Heiner Lieth**
