

# Looking For a Science Class That Will Change Your UC Davis Experience?

## SCIENCE & SOCIETY 70A

### *Genetic Engineering in Medicine, Agriculture and Law*

Winter 2009

Learn about genes & how they are engineered

Tuesdays and Thursdays, 3:30 – 6:00 pm (CRN 54390)

A separate 2 unit Discussion Section will be scheduled @ a time convenient for all students (PLB 98, CRN 47280)

Discuss legal and ethical issues raised by the use of genetic engineering

Hear from experts about DNA testing in crime labs, in vitro fertilization and genetically-modified foods

All non-biology students (especially non-science students!) and Freshman biology students may enroll

For information about the class:  
contact Professor John Harada,  
[jjharada@ucdavis.edu](mailto:jjharada@ucdavis.edu)

Earn GE credits for Science & Engineering or Social Sciences

or see course content and videos of past lectures @
